We implement Safety Plans. Whether it's a new or existing Safety Plan, we will get it working for you. There are many options, readily modified, to assist you implement the Safety Plan into your workplaces. Whether you have one or one hundred and one staff, have local or remote workplaces, or are only available on weekends, we will readily accommodate your requirements.

Service description -

Our SMS Development & Implementation service provides research, development, customisation and implementation of online

or offline Safety Plans including third party support software and assisting clients with system certification and federal safety commission accreditation.

Service details -

We liaise with you, managers and employees to understand your business, the work environment and the work your business undertakes, develop concepts and approaches to suit whilst following Australian Standards and relevant legislation, build online or offline systems and documentation, write up processes, procedures and forms and transform them onto the selected media. We develop training materials and sessions recommended to accompany implementation.

How the service works -

Once your brief and engagement is settled, we get to work to understand your people, business and industry. We gather

information by observation and discussion. Whilst the background hunting consumes considerable time, most work is done in our office preparing processes, procedures and forms. Specialists are engaged for software and internet components.

Our desire to encourage and assist shines through in providing simple, easy to use procedures and content filled documentation.

Fisher Jenkin Workplace Safety encourages and assists employers proactively manage workplace safety risks whilst achieving compliance with obligations and responsibilities that employers must embrace in today's business environment.

Please contact our head office or nearest franchise for personal, positive and professional attention to your workplace safety needs.
