

Employers take comfort from knowing their business has a robust safety management system (Safety Plan) installed, one that is readily identifiable and can be assessed, checked and audited with confidence.

Safety Management Systems Industry Generic

Our industry based generic solution was developed in response to an obvious need in the business community for an affordable, simple to use, practical and content filled management system that satisfies legislative requirements and easily integrates with and enhance existing systems.

The business community also wanted access to independent telephone advice and an affordable service to keep them up to date. This we do!

Service description - Our Safety Management System, Industry Generic service are generic industry based Safety Plans that meet Australian Standard 4801 for OHS management systems as well as WorkSafe Victoria's SafetyMAP Edition 4, Initial level, another recognised and widely adopted standard.

They provide employers with paper based guidelines that explain 'what to do and when to do it', policies processes & procedures, all associated forms and an extensive range of safe work method statements. The Safety Plan is supported by introductory training, telephone access to our staff and an update service.

Service details - The Fisher Jenkin Safety Plan comprises hard and soft copy documents all modifiable to suit your specific needs, introductory training at your premises, telephone access to our staff and an update service.

Within the Safety Plan chapters address Read This First explaining why have a safety plan, contents, legislation, glossary, etc, Policies to be applied, Processes that outline 'what to do' and 'when to do it', Detailed Procedures explaining specific actions and an extensive array of relevant Safe Work Method Statements and content filled Forms.

You can implement a parred down form, using core essentials only.

How the service works - To arrange purchase, simply email us your confirmation and business name, address, contact points and ABN number. Include your business logo, preferably in electronic jpeg format. We will prepare the Safety Plan and contact you shortly afterwards to arrange delivery and introductory training.

Each year we will invite you to subscribe to the update service including ongoing telephone access to our staff.

Fisher Jenkin Workplace Safety encourages and assists employers proactively manage workplace safety risks whilst achieving compliance with obligations and responsibilities that employers must embrace in today's business environment. Please contact our head office or nearest franchise for personal, positive and professional attention to your workplace safety needs.
